We ask students to grade themselves on 0-9 scale module and provide past learning experience info for our reference. We will further evaluate students on arrival or first day in the form of writing or interview in order to place them into the appropriate class. Besides language level, age is the other consideration.

8 How about teachers and teaching Methodology?

We've carefully selected a faculty among all our teachers with rich experience in teens and adults teaching. All of

them are Chinese natives with university degrees, experienced and passionate about teaching their native language. All of them speak English or other languages. Classes are conceived to be sufficiently interesting and entertaining to motivate students to the fullest, but we simultaneously optimize class time by encouraging conversation and discussion in a serious and professional manner. Our aim is for students to enjoy themselves while learning as much as possible in a short period of time. The methodology is centered on a communicative approach, utilizing diverse techniques to cover the fundamentals of language learning: grammar, speaking, listening, vocabulary, pronunciation, writing & intercultural competence. For beginners, the teaching content will be conducted in Pinyin while for more advanced students, Chinese characters is an integral part of the learning content.

12 Who can join the program? I don't know any Chinese. Can I still join?

Many of our students are just learning Chinese and traveling to China for the first time. We look for students who are interested and learning and improving the Chinese language and those with an inquisitive thirst for cultural diversity, adventure. Those students who are narrow minded, skeptical about foreign culture, not willing to try new things and less motivated or independent, however, might not be suitable to the program.

13 What languages are spoken?

Mandarin and English are spoken by school staff. Some of our teachers conversant in other foreign languages like French, German, Japanese etc. English is not widely spoken on streets in Shanghai or Beijing, so speak as much Chinese as possible!

14 What should students bring for the camp?

Personal travel documents, enough summer clothing to change for a week, hat, flip flops, sunglasses, sun protection, rain gear, personal medicine/hygiene products, small school bag, and some pocket money.

15 How much money should students bring on themselves?

We suggest 100-200USD/week for personal spending or more for shopping souvenirs and gifts.

16 What currency is used in China? Can I use credit cards?

Chinese Yuan (RMB) is the national currency. Any foreign currency including US Dollars is NOT accepted. There are currency exchange services in most banks. Credit cards are accepted in most business establishments, but some only accept credit cards issued in China, so it's still best to bring sufficient cash.

17 Can I bring laptop/pad and cell phone?

Yes, you can. But you need to take care of your valuable belongings yourself. No locker or safe is available in school or accommodation.

18 What electricity is used?

The local electricity supply is 220 volts 50 cycles AC. You will need to supply your own international standard adapter if you plan to power and recharge your electronic devices.

19 We will go to China by ourselves. Who should I contact once we are there?

All pre-arrangement will be made by us. We will arrange airport pick-up based on your flight information. For those who are already in Shanghai or Beijing, you can contact our office directly.

20 How safe is the program?

Both Shanghai and Beijing are very safe cities. Violent crimes are very rare even in the poorest neighborhoods. In our program, students (under 15) are chaperoned by experienced counselors all the time, from having meals, afternoon activities and weekend trips. Any private outings are subject to parent's prior written consent and our approval. The specific days, frequency and times are carefully determined by us for each student. All students are required to be back in their room before 10pm, regardless of age.

21 Do I need travelers insurance?

We want you to bring home good memories, but no matter how hard one tries, there might be some things people just can't plan for. It's must that campers possess valid medical and travel insurance throughout the program.

22 How much freedom can students get? Can students go out to explore on their own?

We arrange plenty of outdoor activities and sight seeing for students in our program. Our counselors will chaperone all these activities. Students aged over 15 can freely explore the city on their own in their free time off the school class, organized activities or trips. We are aware that some younger students are mature than age and do enjoy a certain level of freedom at home and expect to be able to meet with friends and go off-campus in an unsupervised fashion. For this reason we allow our students under 15 a limited number of unescorted trips off-campus during our program. The specific days, frequency and times are determined by us. This is possible if and only if we receive a written consent from students' parents or guardians.

23 I will accompany my child to join the camp. Is it possible?

Yes, parents can join the camp together with kids. In the morning when kids are taking Chinese lessons, parents can take Chinese course with adult learners. They can eat lunch and join weekday activities with kid(s) too. Family accommodation can be arranged and family camp can be customized.

24 Can relatives/friends visit participants? Can they go out with relatives during camp?

Yes. Friends or relatives are welcome to visit students at the school. They can stay for lunch, or even join the activities or excursions with students with a fee proportionally. With consent from parents or guardians, students can leave the camp with their relatives, but they should notify us and get approved before they leave and notify us when coming back.

25 Is the Internet connection available?

Internet access is everywhere in the city. In school, there are computers you may use for checking news, emails free of charge (time is limited so that everyone has the chance to use computer). There is free wireless connection in the entire building too. In host family or student apartments, there is cable or wireless internet. Students who bring their own computers can connect to the Internet conveniently after a simple setup. There are public internet cafés available as well around school.

26 How and where do I apply for a visa?

No specific visa type is required by Chinese government to study Chinese at a language school or attend summer camp. As a general practice guideline, students are suggested to apply for L (tourist) visa in your local Chinese embassy or consulate and it's the most convenient.
